JOHN H. HARNEY. State Rights. It is the opinion now that because States have rights they have all rights. They are, cavalry. They are expecting an attack indeed, independent nations. A State owes every day. These troops are being rein- will not be taken out of the State, but are no more to the Federal Government than it forced daily by Secessionists from Fentress to be kept on the State line and guarded, does to Mexico. We have been for seventy, under one Government, but independent umphantly." nations, until we have made twenty-one of them on this Continent, beside the original thirteen. Very plain and simple, indeed, is the doctrine of State rights. There is no limit to these rights. A State can repudiate all obligations. It is sovereign over even the moral law; it can do no wrong. All it wants, belonging to other people, it can take, and all owed by its citizens to other peo ple, it can appropriate to its use. All the vested by time, founded on faith in man, a production: State can annihilate with its sovereign breath. It can, moreover, in pursuance of these great rights and wrongs, make the whole country one vast slaughter-house, and fill the whole Continent with mourning, burn up and destroy the labor of years, and throw upon generations to come a vast, incalculable debt, to be paid by the hard toil and sweat of centuries

a great deal of State rights; but if these are State rights, they are the world's wrongsmere monstrosities.

When we obtained Louisiana, and the control of the Mississippi, we supposed we had really obtained a property in that great highway of trade and travel, and did not dream that, in the course of time, a few settlers about its mouth would set up a claim to it, and shut us out by a high act of sovereignty. We have just learned that we bought a large inheritance for other people to steal away; that we got Louisiana and the Mississippi river to lose it to another. And Texas; only think of that-about a hundred millions, and the blood of a Hardin, Clay, McKee, Willis, and a host of others wasted to acquire property in that region. wasted to acquire property in that region.

It seems all this was done by the United

rains will give it a decided impulse. The another power, not to remain with us. She is off on the high hobby of State sovereignty, and ready to marry herself to any suitor to suit her fancy; to go back to Mexico if she thinks proper.

It's well we didn't make the foolish blunder of buying Cuba-giving \$200,000,000 eration or less. She couldn't find snother title for the consideration. Indeed, if this the Conservative: theory be true, the United States has been the world's fool; building up a cob house that a breath of wind could blow down, and in favor of making Kansas a free State, is calling it a Government; boasting of the structure as the great power of the world, when it was nothing but a frail league of petty nations; each no part in any other; and each too weak to defend itself from the most puny nation in the old world. Mexico United States. She is still one country in ment on himself. We know what we are all her troubles; we are thirty-four little but we know not what we shall be: conceited sovereignties; about big enough for a dutchy; able to support a duke with moustache and pay his grog bills.

And is this the end of our country-of the great ocean-bound Republic! Will any patriot, who has the instincts of a man, submit to so degrading a destiny for his country? Will he sympathize with the men who would thus divide and destroy the inheritance our fathers left us?

The Secessionists of Tennessee have stolen the arms of this State-s thousand stand-after they had been taken to Mayfield, to be convenient for the purpose. We want to know if the Governor of this State the munder of her lover, but released be- fidence only to betray it, and play the parts will quietly submit to this? It seems that cause the charge was not proved, is about the Tennessee troops deliberately came to Mayfield and perpetrated this robbery. Some say they are Kentuckians that went from this State to Union city. No matter, they were not Kentuckians after they had thus expatriated themselves.

Greeley, of the New York Tribune-General Greeley, of the peace establish- slab sided Yankee, who breakfasted every ment, is filled with wrath about the late disaster. He demands that all the Cabinet resign for not giving Scott more troops.

It was suspected at the time at ncampment was formed in the lower part of this State, and guns sent down there, that it was a movement to aid the Confederate forces. Subsequently the arms were taken to Mayfield; no doubt with the design of carrying them off to Tennessee. To charge it, of course, was a great sander. The result shows that suspicions were not ill-founded. Tennessee has not only invaded Kentucky with her troops, but has stolen the arms of this State. It was attempted before, but then they employed wagons, and were disappointed in their purpose. They came armed and prepared this time, and succeeded. About forty stand of arms were seized before by the Tennessee authorities on our soil. We think it about time that State should be taught a lesson. She has seized our railroad running stock, and now she has stolen officially over a thousand stand of arms, and invaded our soil to do it. The Governor will act, perhaps; but if he does not, it is time the people should act, and teach him his duty.

A gentleman writes us from near the State line of East Tennessee that there is no freedom of speech and no liberty in he says, gave a Union majority of 542 votes in the recent election in that State. Letter from Graves County. SRS. HARNEY, HUGHES & Co.:

Gentlemen: On Saturday evening, Captain H. C. King's company returned on the cars to Union City. Captain Boone and Ervin Anderson, Secessionists, went down to Paducah Saturday morning, and they and prominent men of all parties had an interview with Captain King, and perhaps some other of the officers of the company, and they agreed and did return the Minnie Rifles which they had seized at Paducah belonging to the State-sixty in number; and Boone and Anderson reported they had given their word thereon to desist from any further intention to seize the arms here. It was observed, however, that there was a long train of platform cars, which was not usual, come up; and this gave apprehension to the Union men : but as their services had been rejected, and a very hostile disposition manifested to their guarding the guns, they determined to leave the entire responsibility on the Secessionists. About midnight the cars returned with the said King's company and others, all estimated variously from 120 to 300 men. King remained behind. Part of the Illinois company was along.

They took everything-guns, cannon, ammunicion-all. One cannon is thought to be carried to Tennessee river, just above the State line, as its track was traced along the Paris road. MORE DEVELOPMENTS OF THE TREASON OF JACKSON AND TUCKER-CONFIDENTIAL LET-TER OF GOV. JACKSON TO TUCKER, ON THE 25TH OF APRIL-HIS POLICY AND PLANS FULLY DEVELOPED-HIS STRICTURES ON PASCHALL AND STERLING PRICE

JACKSON CITY, July 22, 1861. Enclosed I send you the following confi dential letter, from Governor Jackson to Tucker, editor of the defunct State Journal, which was seized in the office of the latter. It was handed to me for publication. It is in Jackson's own handwriting, of which I little dreamed when he wrote this, that it would ever be exposed to the public eye as a glaring evidence of treason and treachery. But the letter speaks for itself:

LETTER OF GOV. JACKSON.

JEFFERSON CITY, April 23, 1861. My Dear Sir: I write this note in confi dence, and under a state of mind very peculiar. I know not when I have been so deeply mortified as on yesterday, when I read the leading article in the Republican Gov. Price called on me a few days since, when passing on his way to St. Louis. We had an interview of ten minutes, not more. It was strictly private and confidential.

Neither was at liberty to repeat what the other said, much less was either licensed to mistake and misrepresent the position o the other. Gov. Price asked me what I thought as to the time of calling the convention: I told him not to be in a hurry, but here at that time, so that we could consul with the members from all parts of the State, and fix upon a proper time; that, in my judgment, we should not go out of the Union until the Legislature had time to arm the State to some extent, and place it in a proper position of defense. This was, in substance, the sum total of

all I said to him.

Gov. Price said many things to me, in that short interview, which I am not at liberty to repeat, and which I could not do without doing violence to my sense of honor, violating every rule of propriety which governs the intercourse of gentlemen, and

honorable member of community.

If it be the purpose of Paschall and Price to make me indorse the position of the Republican, and the miserably base and cowardly conduct of Gov. Price's submission convention, then they are wofully mistaken.

Lashed and driven, as they have been, by an indignant and outraged constituency from their position of unconditional Union men, they are now seeking shelter under the miserable absurdity of "armed neu trality."

You will do me an especial favor to inform wishes his position upon matters of public interest properly stated before the people he will take some direct manner of doing it, and not rely upon the colored and garbled statements of a set of men, who, under the

of pimps and spies.
I do not think Missouri should secede to day or to-morrow, but I do not think it good policy that I should publicly so disclose.
want a little time to arm the State, and am assuming every responsibility to do it with all possible dispatch. Missouri should act in concert with Tennessee and Kentucky. They are all bound to go out, and should go together, if possible. desires to remain with the North if every other slave State should go out. This he proved in indorsing all those who veted against Bast's amendment.

The people of Missouri, I must think, understand my position. Paschall knows the people are twenty to one against him, and hence he thinks to drag me into his aid and support. You should denounce his

course and expose his baseness. To frighten our people into the mos lavish position, he parades before them slavish from day to day, our defenseless attitude and meanly makes it out a thousand times worse than it really is. Missouri can put into the field to-day twenty thousand men better armed than our fathers were, who won our independence. If you can, I would be very glad to see you here or Tuesday evening. I hope you will fully comprehend my whole policy, and without undertaking to shadew it forth specifically or in detail. I only ask that you will defend me from the false position in which Paschall and Price seem disposed to place me. Call on every country paper to defend me, and assure them I am fighting under the true flag. Who does not know that every mpathy of my heart is with the South? The egislature, in my view, should sit in secret session, and touch nothing but the measure

Let the measures of Messrs. Sturgeon Paschall, Taylor & Co., in regard to their railroads, all go by the board. I have not the patience or the time to talk of such matters now. Let us first preserve our liberties, and attend to business affairs afterwards. Let all our energies and all our neans be applied to our defense and safety. C. F. JACKSON, Gov. of Mo

CURE GUARANTEED WITHOUT THE USE OF MEDICINE BY AN ENTIRELY NEW MEDICATED BATH.

Relief Experienced in Three Days OLD MERCURIAL AND BLOOD DISEASES EN-TIRELY REMOVED, AND THE SYSTEM THOROUGHLY REGENERATED!

Do not Despair .- There is Hope at Last! TWO YEARS AGO EXPERIMENTS WERE INSTI-Two years ago experiments were instituted at our Dispensary with a new method of eliminating the virus of Syphilis from the system, by means of a new and peculiar Medical Bath. The experie ent proved a most wonderful success, and since that time hundreds of cases have been treated without a single failure. Not a dose of medicine is given in ternally, except in cases of debility, where a simple tonic is required. The stomach and internal organs thus escape indury, and no unpleasant effects are experienced. Old humors, and the remains of old diseases inving in the system, are expelled entirely, and the body restored to a condition of perfect health.

It is a well-known fact that Syphilitic I iseases cannot be cured by internal medicine, notwithstanding many process to do it. There are thousands who have been under the most skilfful treatment for years, and expended hundreds of dollars, who have completely ruined their constitutions by taking mercury and other medicines, without curing the alsease; whereas, by this method, in a very short time we are enabled to perfect a cure in every case, no matter how bad.

We invite physicians to send us their worst cases to test our new method, especially their poor patients who are unable to pay for an expensive course of treatment. An improvement is often experienced from the first day.

Our charges, which must be paid in advance, will be first day.

Our charges, which must be paid in advance, will be adapted to the circumstances of patients: and in all cases where the cure is not effected, the money will be refunded.

All other diseases of a private nature are treated, as usual, upon improved principles at our Dispensary which is a regularly chartered institution. Open day and night.

AFTER TAKING THE SEFORE TAKING THE ELIXIR ELIXIR. Dr. WRIGHT'S CELEBRATED

Rejuvenating Elixir! repared on the strictest Pharmaceutical Principles one of the Ablest Chemists of the Age.

THIS IS ALTOGETHER A NEW MEDICINE, THE THIS IS ALTOGETHER A NEW MEDICINE, THE result of modern discoveries in the vegetable hing dom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systeme published by accomplished quacks to the suffering. Dr Wright, well knowing the deception practiced upon the uninitiated, felt it his duty at once to have this Elixir tested by the whole Medical Faculty, who, without even one dissenting voice, have given in their adherence to its perfect and undivided control over the whole physical man when his frame has been reduced, and when all other medicines known to the Pharmacopea have been tried in vain. Long-thought years of patient investigation, and a nil desperandism determination, have crowned the Doctor's efforts, and he now offers the Elixir to suffering humanity as the only thing that can cure the following diseases namely: GENERAL DEBILITY, MENTAL AND PHYSICAL

DEPRESSION, IMBECILITY, DETERMINATION OF BLOOD TO THE HEAD, CONFUSED IDEAS HYSTERIA, GENERAL IRRITABILITY, REST-LESSNESS AND SLEEPLESSNESS AT NIGHT, ABSENCE OF MUSCULAR EFFICIENCY, LOSS OF APPETITE, DYSPEPSY, EMACIATION, LOW SPIB ITS, DISORGANIZATION OF THE ORGANS OF GENERATION, PALPITATION OF THE HEART and, in fact, all the concomitants of a nervous and billitated state of the system.

AS A STIMULANT, it is quite different from alcohoreparations. It is not subject to reactions in shape; it continues to exert its influence, gradually sinciently, as long as the least necessity exists to AS A FEMALE MEDICINE, it is equally powerfu and effective, and restores the equilibrium sooner an affect than all the other medicines which for years have flooded the market, and which are only injurious; place of assisting or renovating the constitution: for very good reason, too, that they are only made from the effusions of minds ignorant of the medical profession altogether. the human family.

The great difficulty with all other old-style Machines is too much complication, requiring so much constant adjustment, and such an amount of mechanical skill and ingenuity to use them to advantage, as to render them of little comparative value.

But the Sewing Machines manufactured by Greenman & True are not liable to these objections, as any person, on even a moment's examination, will readily discover. They will do more and better work than any other Machine ever offered to the public, making the most beautiful lock-stitch, alike on both sides.
